Bloom's Digital Taxonomy
Examination Assessment Tool

Purpose:
This tool is designed to analyse the composition and structure of examinations and tests for the balance of Higher Order and Lower Order thinking skills.

Process:
1. In the first column enter the question number
2. Match the action verbs in the questions to the corresponding columns in the table
3. Enter the marks assigned to each question in the cells that match question number and the verb.
4. Repeat this process for the examination.
5. Total the marks in each taxonomic level and calculate the percentage of the assessment task at each taxonomic level.

Assessment Task: **Date:**   **Grade:**

Examination Question Enter the question number below.	Remembering						Understanding									Applying				Analysing						Evaluating								Creating						
	Identify	Listing	Describe	Name	state	define	Infer	Interpret	Classifying	Paraphrasing & Summarising	Calculate & Solve	Discuss	Factorise	Drawing	Explaining	Exemplifying	Implementing	carrying out	using	Differentiate	Comparing	Attributing	Organising	Structuring	Analyse	Mind-mapping	Checking & Judging	Hypothesising	testing	Experimenting	Critiquing	Reviewing	Reflecting	validating	Designing	Constructing	Inventing	Making	Devising	Planning	Directing/producing
